Cicatricial Alopecia Research Symposium 2011: Current Progress and Future Challenges

Thursday and Friday, October 27 - 28, 2011

This symposium will feature world class experts presenting the latest research in cicatricial alopecia. It will bring together hair biologists, immunologists, dermatologists, environmental toxicologists and hair transplant surgeons in their common pursuit of a deeper understanding of the etiology and pathogenesis of cicatricial alopecia . The symposium will facilitate the exchange of ideas and information between laboratory and clinical researchers to accelerate the translation of basic scientific discoveries into clinical applications.

Call for Abstracts

Individuals wishing to submit abstracts for oral and poster presentations should contact Pratima Karnik, Ph.D. pratima.karnik@case.edu
Phone: (216) 368-0209, Fax: (216) 368-0212
